

Bilberry extract efficacy: we supply the proof.

There are almost 450 species of bilberry. There are many bilberry extracts, sold at many different prices. But only one offers proven efficacy: Indena's Mirtoselect®.

Mirtoselect® is obtained exclusively from *Vaccinium myrtillus* L., and it's the only bilberry extract whose efficacy has been clinically demonstrated. To prove it, we can supply you the unmistakable HPLC fingerprint of its anthocyanin pattern.

Effective health food products mean satisfied customers. Something worth bearing in mind next time you consider using an unproven extract.

To know more, call Indena today.
